(54) PHOTOGRAPHIC IMAGE PRINTER

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a photographic image printer in which a plurality of kinds of memory card can be inserted easily into appropriate card slots.

SOLUTION: When a user brings a memory card close to a photographic image printer 1, a signal indicative of the kind of card is transmitted from the transmitting means 151 of the memory card 15 to means 60 for determining the kind of the card. The means 60 designates to open an opening/closing opening 52 such that the memory card 15 can be inserted into a corresponding card slot 12. Consequently, a user can insert the memory card into an appropriate card slot.
